[Cycling 74 Max 7 Crack 14](#)

untitled (unlocked)

100% ▾

```
1 Param exponent(1);  
2 scale_1 = scale(in1, 0, 1, in2, in3, exponent);  
3 out1 = scale_1;
```

The screenshot shows a Node-RED workspace with a 'scale' node (labeled 'scale 0 1') connected to four input nodes: 'in 1', 'in 2', 'in 3', and 'param exponent 1'. The output of the scale node is connected to an 'out 1' node. The right-hand pane displays the JavaScript code for the scale node, with the function call line highlighted in blue. The interface includes a top toolbar with a search bar and a bottom toolbar with various utility icons.
